6002.00 Conflict of Interest

In accordance with AISA's not-for-profit status, as well as to maintain the reputation and credibility of the organization and to ensure effective, impartial operations and governance, it is essential to recognize and where at all possible to avoid situations in AISA's fundraising program where a conflict of interest among staff or board members may influence, or appear to influence, the organizational decision-making process. Board members and staff will be expected to sign a conflict-of-interest policy to ensure that they nor a family member have or appear to have a financial interest or benefit from AISA's fundraising program.

6004.00 Strategic Partnerships and Fundraising Committee

1. The purpose of the Strategic Partnership & Fundraising committee will be to build strategic partnerships with individuals, foundations, non-governmental organizations and corporations that will advance the organizational mission, diversify financing streams, and support member schools. A major focus will be on increasing philanthropic funding through gifts and grants that directly benefit the organization and promote special initiatives in schools across Africa. The committee will also ensure the policies and protocols pertaining to fundraising are being met annually and updated as needed. SUB-SECTION 6005 GIFT ACCOUNTING AND ACKNOWLEDGEMENT

6005.01 Gift Accounting

All philanthropic gifts to AISA will be accounted for, recognized and thanked in a timely manner, ideally all within one week of the receipt of the gift. AISA staff shall ensure all gifts are deposited in the appropriate account based on the designation and nature of the gift. A monthly reconciliation of all gift funds will be performed to ensure accuracy and mitigate any errors in accounting. An annual audit will address and correct any issues with gift accounting and use. It is recommended that philanthropic gift accounts be designated and coded differently than other revenue accounts. Gifts shall be accounted for based on the accounting system used by AISA, which at this time is the accrual method that establishes that expected revenue shall be counted in full at the time it is documented rather than when the cash comes into the organization.

When a gift is received and deposited into the appropriate account, the donor shall be thanked in an appropriate manner depending on the level of gift. For example, major gifts will be thanked by the Executive Director and a member of the board whereas smaller gifts only thanked by the Executive Director or staff member. AISA staff, in consultation with the strategic partnerships and fundraising committee, will outline and follow a schedule for thanking gifts depending on gift size, gift type or type of donor (ie. Individual or corporate, board member, etc). In the event that the philanthropic gift is tax deductible, AISA staff will generate and send a tax receipt to the donor within a timely manner.

6005.02 Gift Fee Policy and Disclosure Statements

Should AISA assess a fee on philanthropic gifts received, for the purpose of funding the operation of fundraising and gift stewardship, AISA will disclose the fee in writing to the donors at the time of the gift transaction and will make the matter of a gift fee known on appropriate material related to fundraising. The strategic partnerships and fundraising committee will be responsible for drafting and approving, in collaboration with the Executive Director, any gift fee and language about the fee.

6005.03 Reporting

A full reporting of all gifts received and the nature and use of the gifts shall be provided to the strategic partnerships and fundraising committee at least bi-annually, unless requested on a more frequent basis. AISA will provide reports to donors/supporters on the use of their gift funds on an annual basis, unless requested on a more frequent basis. Donors who make gifts to support general operations shall be informed on a general basis of the operating activity of the organization. Donors who make gifts to general or pooled endowment funds, such as the AISA development fund, shall be notified annually of the use of the earnings of the fund. Donors who make more specific, targeted gifts that establish named funds shall be made aware of the use of the principal or earnings of the funds, depending on the type of the account established. The Executive Director or designee, in consultation with the strategic partnerships and fundraising committee, will determine on an annual basis how best to document publicly the use of all gift funds. Unless stipulated by tax-laws, AISA need not provide a full accounting of gifts received or use of gift funds publicly. Gift and donor reports shall be filed electronically and archived for easy access in the future.

6005.04 Pledge and Restricted Fund Agreements

Any philanthropic gift commitment whereby the donor makes a pledge for future gifts may be documented and accounted for when done so in writing, including through email, and, where possible, by using a standard pledge agreement. For unrestricted gifts or gifts to a previously established fund, such as the AISA development fund, a simple pledge agreement or written letter or email will suffice if it outlines the name of the donor(s), purpose of the gift, pledge payment schedule and any funds already received as part of the commitment, and any stipulation on reporting, recognition, publicity and confidentiality. Restricted gifts that establish new fund accounts and have naming rights require additional information such as whether it is suitable to receive future or additional gifts into the newly established fund, the naming of the fund, provisions in the event of a change in circumstances that require AISA to redirect the funds, and information regarding the process by which funds are awarded, if applicable and stipulated by the donor. The strategic partnerships and fundraising committee will establish the minimum gift level threshold for establishing a new named restricted fund. The strategic partnerships and fundraising committee will approve pledge agreement templates.

6005.05 Recognition

AISA will recognize all donors who do not wish to be anonymous on an annual basis in an annual “honor roll”, in print and/or online. Donors shall be recognized based on the nature of their philanthropic giving and may, at the discretion of the strategic partnerships and fundraising committee, be recognized based on the amount of their giving. Donors may also be recognized at conferences, in publications, and through other publicity, upon consent of the donor.

6005.06 Donor Confidentiality, Privacy and Anonymity

AISA respects and protects the privacy of donors and will make every effort to ensure confidentiality and anonymity of gifts, at the donor’s request. Donor information provided to AISA will be handled with care and confidentiality and not shared with any third party. AISA may use donor information such as addresses, emails and telephone numbers to contact donors and for the purposes of sending promotional organizational material and donor reports, unless specified otherwise by the donor. AISA will take the necessary steps to ensure that online donations are executed via secure connection and that information shared through online payment methods will be encrypted. AISA staff and board members are not permitted to use donor information for any purpose other than those they are they are performing for the benefit of AISA.

6005.07 Naming Rights

in recognition of the impact of philanthropic gifts to the mission of the organization, AISA will award naming rights to a certain level of major donors based on a predetermined system for these levels that ensures consistency and accountability. The strategic partnerships and fundraising committee will develop and assess this system and approve all naming rights, at the recommendation of the Executive Director. Although a donor may meet the minimum giving level for a naming opportunity, AISA reserves the right to deny a requested naming opportunity should AISA deem such an association with the name requested causes harm to the organizational mission. In these cases, the Executive Director will work with donors to provide for alternative naming opportunity before seeking approval by the strategic partnerships and fundraising committee. AISA may award naming rights for new funds, programs, conference activities, office space, and other elements of the organization or AISA development fund that allow for naming opportunities.

SUB-SECTION 6006 ENDOWED GIFT FUNDS

6006.01 AISA Development Fund

1. Established in 2018, the AISA development fund is a pooled investment fund provided with philanthropic gifts and grants. The purpose of the fund is to support the mission of AISA by providing a steady revenue source for AISA operations as well as to allow for AISA to award impact grants and loans to member schools on a competitive basis. The AISA development fund will include three component parts:
 - a) The Operating Capital Endowment is directed at supporting AISA program services and AISA school support services as laid out in AISA’s mission and activities.
 - b) The School Infrastructure Development Fund is directed at providing loans and grants to member schools for building projects. For some schools this means the ability to better manage the basic upkeep of existing facilities that may have fallen into disrepair over time as a result of the inability to access funding. For other schools it will mean much needed

expansion and/or upgrading of existing facilities to support increasing student enrollments and the concurrent need to support additional learning programs such as students with special needs.

- c) The School Improvement Initiatives Fund is directed towards grants and loans to member schools for school improvement initiatives that specifically target those areas in which national infrastructure may be found wanting. These include the development of robust internet connectivity and telecommunications, the installation of backup generators and solar installations where power supplies are frequently problematic, the drilling of boreholes and installation of water capture and storage tanks to ensure adequate water supplies, and security lighting and anti-terrorist protection for school campuses.
2. The AISA development fund will operate as a long-term endowment, providing for a continuous spending stream that grows, ideally, at a rate greater than or equal to inflation used each year based on the spending policy set by the board of directors upon the recommendation of the AISA finance committee, in consultation with the strategic partnerships and fundraising committee, while preserving and growing the real value of the corpus of the principal in perpetuity. The earnings shall be allocated as follows:
 - a) For AISA operating capital to support AISA program services and school services (60%);
 - b) For school improvement, campus infrastructure and capacity building through impact grants and loans to member schools awarded on a competitive basis (40%).
 3. The distribution of earnings is subject to change upon approval of the entire board after recommendation of the strategic partnerships and fundraising committee and the AISA finance committee. Donors and grantees may designate gifts and grants to the AISA development fund in writing but without a separate endowment agreement. However, AISA shall notify all supporters of the AISA development fund that their philanthropic gifts and grants will be permanently restricted into endowment and all or a portion of the earnings shall be used for specific programs as outlined above. It must also be made clear that AISA reserves the right to redirect the funds to a related purpose should the need for the AISA development fund change.
 4. Gifts of all levels may be invested into the AISA development fund with written consent of the donor or grantee; however, AISA will aim to attract philanthropic gifts for the fund greater than \$100,000.

6006.02 Additional Endowment Funds Establishment

From time to time, individuals and organizations may wish to establish additional endowment funds with unique mission-aligned purposes, such as the Margaret Sanders scholarship fund. Additional endowment funds will be established per the gift acceptance policy and will require an endowment agreement that clearly outlines the purpose and nature of the gift signed by the donor and representatives of AISA. The strategic partnerships and fundraising committee will establish the minimum threshold for giving to establish additional endowment funds.

6006.03 Endowment Funds Spending Policy

The spending policy ensures that assets can be managed in such a way as to support the purpose and goals of the endowment. The primary goal for the investment of the endowment funds shall be to generate a total return that will exceed its annual spendable amount, all expenses associated with

managing the funds and the effects of inflation. The board wishes for all spending for the purposes of the endowment funds to be generally limited to 5% of the average endowment market value over the past 12 quarters. It is the intention that any excess return above and beyond the amount approved for expenditure or distribution, minus fees, will be reinvested in the fund. AISA will invest endowed funds pursuant to the policies of the board of directors (section iv: 4006).
