

# Use BridgeU for free until 1 October

In light of the current circumstances surrounding COVID-19, many schools have had to close their doors for extended periods of time. This has had a huge impact on students' learning, especially for those who are about to apply to university.

To help counselors manage their university and careers guidance programme remotely, and keep students on track, we are offering the BridgeU platform for free until 1 October 2020.

## How it works

During your trial period your school will get use of the full suite of BridgeU features to help your students with their university research and application preparation, including our university/course matcher, assessment tools, and essay builder. [See a full list of features here.](#)

Each faculty member and student will be given their own BridgeU account, so you can assign tasks, track progress, and collaborate on application documents. You'll also be able to attend all of our customer events and webinars.

## Getting started

We understand that it can feel daunting to implement a new platform at this time, which is why we want to make it as easy as possible for your staff and students to get started.

After a quick welcome call, we'll create your account. Then we recommend you go through our online training videos and book in a session with one of our Customer Success Managers. Depending on your availability, we can have you up and running in just a few days. [Learn more about how to remotely implement BridgeU here.](#)

## What's next?

We'll always be around on email or live-chat to answer any questions as you continue to use the platform.

And when your trial ends? You are under no obligation to continue with BridgeU after 1 October - though we hope you will! We'll get in touch with you closer to the time to discuss whether you want to renew.

Ready to get started? [Book a meeting with one of our Education Partnerships team.](#)
