

School Management Software for **K-12 Education**

Run your institution **easily and confidently**
from one single platform

Administration

Get a broad overview of all relevant school data in one single user-friendly dashboard.

Financial

Maximise cash flow with automated invoice send-outs, notifications and in-app payments.

Academic

Empower teachers to work smarter, easier, and gain time for innovative projects.

Parent Engagement

Connect parents with a mobile app, with daily timeline, quick messages, media, events, and more.

At a school management level, we are able to see how the parent interaction is going, how the revenue reports are being generated and how the child progress is happening."

Saurabh Narain
CEO, Maple Bear Gulf Schools

Kinderpedia has proven to be a great partner in sharing the vision of our school to our families."

Margarida Silveira Rodrigues,
Co-Founder, Raíz International Active Learning School and Director of High Scope Portugal

By consolidating various activities that I used to perform separately in other tools, Kinderpedia has made it easier and quicker to manage everything in one place."

Penny Backus
Teacher, Questfield School

With Kinderpedia, we are proving that technology can enhance the learning process. We are using innovative tools to ensure that our students and their families have access to everything they need for each child to reach their full potential."

Lauren Engler,
Communications Officer, Cambridge School of Constanța

"Kinderpedia's user interface and how you work with it are really amazing. The design is phenomenal, and also their focus on creating a connection between students, teachers and families."

Markus Schultze,
Co-Founder Brave Generation Academy

Who uses Kinderpedia

School Owners, Managers, Head Teachers

- Easy-to-implement and intuitive student management system
- Multi-headquarter management from one single admin account
- Role definition for all users
- Customisable dashboards and reports for financial, academic and team stats
- Downloadable school performance reports

Financial Personnel and Database Admins

- Customised payment plans with one-time setup
- Automated invoicing of tuition fees; in-app payment via Stripe
- Real-time overview of financial stats, family balance, overdue payments
- Integration with popular accounting systems
- Transparent staff weekly schedule and activity overview

Teachers and Educators

- Attendance, gradebook, schedule on the dedicated mobile app
- Assignment module with real-time, interactive feedback
- Resources library with easy filtering options
- Individual or group downloadable progress and assessment reports
- Teacher-parent communication tools with familiar interface

Parents and Children

- One-click access to classroom schedule, gradebook, assignments
- Instant communication with school staff through quick messages
- Media gallery, events calendar, weekly menu, newsletter composer and survey builder
- Real-time notifications for school events and announcements
- Safe, cloud-based environment for all data related to their children

School Management

Kinderpedia empowers educational leaders with instant access to data across different departments or headquarters. It allows them to make informed decisions, through custom reports and personalised dashboards.
