

Introducing PowerSchool

SUPPORTING DIGITAL TRANSFORMATION FOR
INTERNATIONAL SCHOOLS AROUND THE WORLD

PowerSchool's mission is to empower educators, administrators, and families to help students learn in a way that's right for them. Our solutions help international schools support student success by increasing system security, teacher effectiveness, college, career, and life readiness, and family engagement. Our comprehensive, data-driven approach is designed to ensure personalized education for every journey.

Prepare Students for Future Success

Ensure personalized instruction based on a student's unique academic and social and emotional learning (SEL) needs as they prepare for college, career, and lifelong success.

Improve Family Engagement

Provide parents with a centralized, intuitive experience in multiple languages to see assignments, attendance, announcements, and even complete enrollment forms and update information all in one place.

Simplify Information Management

Build and manage all aspects of your schools—like schedules, grading, facilities, health data, demographic information, and multi-tiered systems of support (MTSS) programs—with intuitive dashboards that inform your goals and strategies.

Elevate Organizational Security

With innovative tools like PowerSchool Connected Intelligence, the first fully-managed data as a service (DaaS) platform, PowerSchool continues to be committed to student data privacy across the education technology ecosystem.

Increase Teacher Effectiveness

Increase the efficacy of instruction with digital curriculum mapping alongside lesson planning, professional development (PD), assessment, content (including Microsoft and Google), and instructional delivery tools with built-in AI functionality.

Digital Learning

With a comprehensive program to protect the security and integrity of our applications—including robust cloud security, security by design, third-party penetration testing, and a responsible disclosure program—all validated by independent third-party auditors, **PowerSchool demonstrates our commitment to protecting our customer's data.**

Introducing PowerSchool

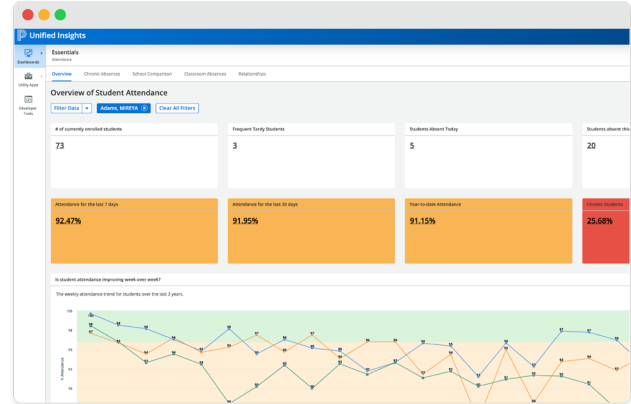

“PowerSchool SIS has been an effective tool to support each of our institutional needs, especially as we’ve shifted to more standards-based assessment. Further, with more accessible student and parent data, we’ve seen notable improvements to our overall grading and communication efforts, especially in middle school and high school.”

SAMUEL LANDETE BENAVENTE | Innovation and Technology Director, American School of Valencia (Spain)

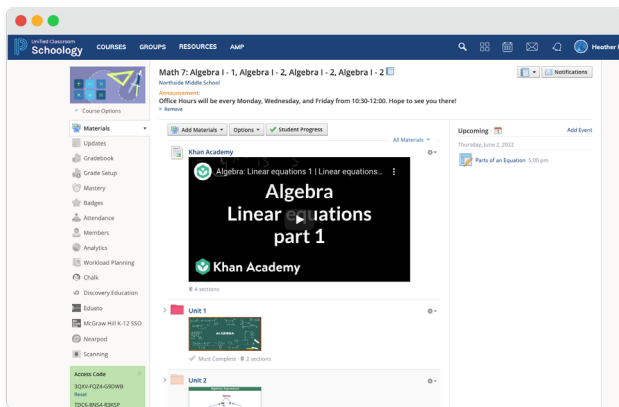

Curriculum Management

Build and share a cohesive curriculum framework that provides improved vertical alignment between lesson planning, content, instruction, and national, state, and local standards.

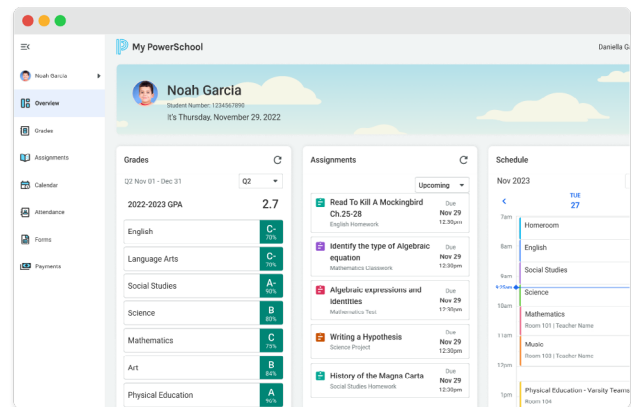

Comprehensive Data Management

Gain a deeper understanding of your data with predictive reporting and intuitive dashboards that help visualize trends in key initiatives such as enrollment, staff support, and early warning alerts.

Engaging Instructional Delivery

Provide students with engaging digital learning experiences built with AI-generative technology specifically designed to meet ongoing instructional needs and interests as students explore options for future success.

Centralized Communication and Collaboration

Increase student support with built-in messaging, announcements, calendars, notifications, and multi-language support alongside Groups to support PLCs, parent groups, extracurricular activities, and more.
